

## Dorothy Turner

May 28, 1942 - March 26, 2021

Dorothy Turner, beloved daughter of Frank & Louise Culp, was born in Winston Salem North Carolina in May of 1942. Numerous years of her childhood were spent in New York City with her two sisters & being from a large family she was also in the genuine presence of many other members while residing there as well. As Dorothy continued to grow, she further discovered her love for the art of music & dance which led her to meet her beau who later became her husband. Together in time they had four children two sons & two daughters & it was from those blessings over time she was also given three amazing grandchildren.

In the midst of being a very caring mother & a new grandmother, Dorothy also cared a lot about the earth & the aspect of recycling. She took pleasure in finding extra ways to be creative & discovered that she was also very talented with making handmade crafts. She would make so many beautiful & remarkable things! Many of which were amazingly made out of everyday household items & it was from her passion to create that she then came up with the ever so witty nickname "Dottie Do" & those who knew her would extend the name even further to "Dottie Do's It" & Does It"! All of which would always bring her added smiles!

Dottie was also such a vibrant & outgoing person! She truly loved spending time with her family & friends & also treasured the special individual bonds everyone had and created with her. She had fun dancing around the house & listening to music with her kids, cooking, baking, with them & going out to try

different restaurants. Enjoyed taking scenic drives or going to new shops with her eldest daughter, loved volunteering in the community & watching creative design shows with her youngest daughter & always delighted in spending time crafting together with her & her granddaughter nicknamed Pnut. She would also have such a pleasant experience going out to listen to music & to hear a longtime friend sing & more!

On March 26, 2021. Dorothy "Dottie Do" Turner's ever so beautiful presence & wings took flight from earth to her next journey in heaven & she passed away peacefully at the age of 79 years old. She was surrounded by the ever so loving ambiance of her family.

There aren't enough words to describe how greatly her sincere, genuine & extremely easy to love demeanor & personality will be missed! But her incredible spirit will continue to shine & will always be remembered in the hearts & lives of all those who knew her.

Never To Be Forgotten.... We Will Love You Forever Our Precious Dorothy "Dottie Do" ?

“ Dear God...I was brought up to believe in you from a very young age, brought up in the elements of church & religious school as well too. In so many experiences & aspects in my life. I always knew you existed but keeping it real there were a few times when I doubted you. Dear God.... I've told myself so many times that many parts of my story in life have so much to do with the experiences I may go & have gone through. The amazing & fun times that I have laughed so hard with loved ones that my stomach hurts or the many times where I've shed so many tears that I could feel myself grow numb. Dear God.... thank you for blessing me with my mother Dorothy Turner. Someone who I was able to share so many different experiences in life with that they are not classifiable in words simply because their meaning means so much more than special... heartfelt... & timelessly limitless. Thank you for granting me 43 years of my life to be spent not only in the physical presence with such a truly remarkable woman but as well daily & so magically continuing to be spent with so many visions of her beautiful spirit. Thank you God for giving me the ability to be with her not only daily but also through a time when so many may have thought that she was wavering.... & it was during those times when she so gracefully continued to not only shine but as well also showed some of her even stronger & truly strongest abilities & capabilities. Dorothy Turner you always tried to fight so positively for what you believed in.... you kept & keep going for those & what you believed in! You never gave up even if at times you ever began to possibly grow the slightest bit tired. You kept & still keep going because we & they were people & things that you believed in! Mom.... Thank you for listening to my daily stories & always wanting to go places with me.... thank you for crafting & wanting to spend time with p-nut & doing so many different things throughout the years with her & me..... Thank you so much for being my mom and for wanting to just be with & walk with me.... Thank you Dorothy Turner for being my beautiful sunrise & sunset every single day & still continuing to have never left & still be so very beautifully & magically spiritually present still here with me. Dear God.... Many will agree & say that the experiences people may have in life can at times define some of the

*steps & paths that they may often take in their lives... Mom mine will continue to always be full of love.... full of care.... full of grace.... full of strength & being a voice.... full of creativity.... and full of smiles & laughter..... and full of positive tears through overcoming obstacles.... full of charming ways & trying to continue to make you proud..... and full of so many wonderful & amazing attributes & more like you my mother. Dorothy Turner.... On March 26th 2021.... You did not lose your battle with life.... God granted you your angel wings beautiful girl & decided that it was your special time to fly!Momma.... Why do I Love You....Because your our ever so sweet Dottie Do....How will I Love You....A million & more ways than a few....When will I Love You....Till infinity Far & Beyond....Remembering you everyday Always & Always....Thank you for being you.... Thank you God for giving me my mom....My Beautiful Rainbow Angel Butterfly!Uttermost Love Always & Always!Tuba*

“ Mom, It is so beyond humbling how you had always told me through the years that my ability to write came naturally & hearing it from you each time I would always say was such a blessed compliment to have been given. I am & will be forever humbled! I know that your spirit is looking down from heaven & is sensing that me writing this is one of the hardest things for me to do but not because of the aspect of typing it but simply because I miss you so unbelievably much & am so sad that unfortunately you are no longer within my physical reach to be able to hear your loving voice & to continue to be able to share these treasured moments & thoughts with you! There aren't enough words in the world that could ever come close to describing you Dorothy Turner. So for now I will just say limitless!! Your presence, grace, intelligence, creativity, witty personality & exquisite smile were among some of the many things about you that were all on the most amazing levels of their own! But your ability to care & just love ever so greatly was also always so absolutely beyond beautiful! Growing up with you & spending time with you mom was so priceless! Together we had our bonds with you as a family, our own serious times & also so many silly & fun ones together & individually but all of which in their own way continued to help us grow up stronger & also as a family together. Your presence was adorably infectious & could light up any room & your lingo always brought so many many smiles to everyone daily & the ability to have our neat chats/ different discussions & share our ideas or creative visions together with you was also always so very much enjoyed! You had a way about you... a strong willed demeanor & strength to push through any task before you! A thriving energy to not only always try your best in your own aspirations but you also always tried to be your children's biggest cheerleader in their individual ones as well! Together in our own special way we had always been close through the years but it was more recently that we had grown so much & so far more closer than any crystal ball could have ever shown us & it was through the ability to continue to show the simplest act of genuine love in holding each other's hand that is among so many of the uttermost tremendously sincere & authentic things about our relationship that will also truly never ever

*be forgotten. Thank you so much mom for not only giving me the gift of life as your youngest daughter... but especially for blessing me with being a part of your life & it's journey as well! Thank you so much for being pnut's grammy & for the very treasured moments together we all shared! And thank you for fighting for love & living through love & so much more!! To My Ever So Beautiful & Vibrant Mother Dorothy... Why Did & Do I Love You?... Because You Are My Precious Mother & Such an Amazing Lady Dottie Do! How Did I And Will I Continue To Love You?... A Million More Ways Than A Few! When Did & I & Will I Continue To Love You? Since I Was Born, Still Now, Infinity, Forever & Beyond! You Will Always Be With Me In Spirit Mom! And I Will Always & Forever Hold & Treasure Your Hand In Mine! Always In My Heart.... & In Spirit Never Apart.... Nor Forgotten! Thank You For Being My Mom! I Love You! Love Your Little Tuba!
