“ Fritz was a pilot's pilot; jet fighters, commercial captain, private planes, Flight school, RC aircraft you name it, He wanted to fly it. I fledged under his guidance at Torrance Airport in the 80's and got my SEL ticket he was a joy to fly with, always keen, never bored will remember you fondly and hope you're soaring high.

“ Fritz and I were on the same training course when we were hired by American Airlines. Also visited him when he lived in Palos Verde, CA, next to Barney Prior. A very fine guy. Carol and I are sorry to hear of his passing...

“ We are truly sorry to learn of Fritz's passing. It's been a long time, but Fritz and I flew together fairly often in the 60s and enjoyed those trips. After I "graduated" to the right seat, we didn't fly together again. Best regards to all, our prayers will be with you., Jim
