Dear Moon

You received a wonderful soul

He left in peace and enjoyed every moment of his life

His smile was as bright as you, on a dark night.

His glow was as special as a full moons time.

He left flying high, full speed thru the sky.

There's some questions that we have and wonder why?

But till then guide him, Show him peace and show him how to shine the
brightest.

Because outta all the stars he'll be the quietest.

He tells us he's there, but he's just the saddest.

Teach him how to be powerful to beam down on us.

Without him our lives are lived in silence.

We had our beginning

But today is our end

Till next time my son, brother, grandson, nephew, uncle and friend.

Long live mena ???????

Tribute Wall

“ *i love you brother* ”
