“ I had the honor of working with Dr. Lloyd Prezant when he began his long career at Redondo Beach Medical Group way back in the late 1970's. He was a joy to work with and loved by everyone there: patients, doctors, and all medical staff. I shall always hold his memory close to my heart.

“ Suncita and I had always hoped to have seen you again and hear your laughter. We're sorry the years got away, and that wish never came true.
