“ *To Marie Monet, a free spirited and beautiful soul. It was an honor to come into your life. I will miss your voice explaining your intriguing experiences you've acquired around the world. I will miss siting with you in the kitchen laughing and joking with one another. It seemed like yesterday, because your warmth and words will always be ingrained indelibly in my heart. Farewell Peace and I hope your finally at the place you've always spoke about. Life will never be the same without you.*

“*Marie (Peace) was a wonderful and fascinating woman and I was blessed to have her in my life. She was a shining and vibrant person whose life goal was to constantly reach a higher form of consciousness and raise her self above the common mentality people have. She was a believer in Falun Dafa and always followed Zhen Shan Ren (Truthfulness, Compassion, and Endurance). She traveled the world in search of what was the highest teaching she could find. She traveled to India, Tibet, China, and many other places looking for the spirituality she was seeking. After finding Falun Dafa her travels came to an end and she diligently practiced for over 20 years in Las Vegas. I know that Peace is where she always wanted to be, with her "important" friends on the other side. I wish you well Peace on your journey and I hope to see you again*
Your love, Andre.”
