

## Pedro Juan Cobo

June 24, 1949 - February 20, 2018

Pedro J Cobo,

The world knew you as Dr. Peter Cobo.

A very good business man and a shark in the world of money. You were a very good friend to

those you consider to be close to you. And you were a very good marine that went above the

call of duty. You were a man of your word. All of those around you knew this.

You were our life and still are. We loved you for more than a thousand days and a thousand years.

If we could, we would lay down with you and take the express way up to the gates

of heaven. You were a very good father to our babies and a very good husband to me. Now, you can rock

out with the great rock stars and and laugh with all

the comedians and finally take your sailing trip around the world that you wanted to do. And you now

will be with all of those who were waiting for you in the gates of heaven.

Dady you were, our life. We miss you and love you with all of our harts.

We will see you in our dreams. To the moon and stars and back agin for all eternity.

We will wait for you my love. We will see you agin. With all of our love from all

the A.M.C'S

Siempre te amaremos papa (we will always love you daddy)
