“ Dear Stacy, we only learned of Sue's passing recently. She and I were very close as little girls in Chicago, when we lived downstairs from Peggy (my aunt) and Louis Green. In our adult years we had drifted apart, although I do remember visiting my sister Karen (Kaplan) in Las Vegas, along with our parents Abe & Tina Korsower; we visited with Jack and Sue, and watched you ice-skate.

I apologize for sending this so late, but I hope you receive it and want you to know that we still are family. Sue had a difficult childhood --I can tell you more about it should you want --but she became a strong and loving adult. She is missed.
